

NAME _____ DATE _____

Team Members: _____

Time Period Studied: _____

1. How many people lived in this area at the beginning of this time period?
2. What was the most common form of transportation during this time period?
3. Describe five major events that happened in your area during this time period. For each event, note when it happened and explain whether it changed people’s lives or the vegetation, wildlife, or way that land was used in the area.

DATE	EVENT	How did it change people’s lives or the vegetation, wildlife, or land use in the area?

4. Explain whether you think these changes made the area a better or worse place to live—or whether the event made no difference.

CAREER CORNER

SOCIOLOGISTS (sew-see-ALL-uh-jists) study people and their communities. By looking for changes in your community, you are thinking just like one!
